

SAPPHIRE

S10

FEATURES

- Superior Colour Gamut
- Excellent outdoor durability
- Chemically Matched to the Original inks
- Great Image Quality
- Outstanding Reliability

OVERVIEW

The Sapphire S10 is a premium quality, mild solvent ink designed for use in Epson DX4, DX5, DX6 and DX7 print heads, as used in printers such as Mimaki JV5 and Roland RS640.

With excellent outdoor durability, the Sapphire S10 ink also features a superior colour gamut for great image quality. This formulation features outstanding press stability, ensuring uninterrupted printing for extended periods, with low maintenance requirements.

The Sapphire S10 ink is particularly suited to the printing of self-adhesive vinyl and PVC banner materials where robust high speed industrial type printing is required. The ink conversions from the original inks are quick and seamless, with no flushing required in the change procedure.
