

SAPPHIRE

S20

FEATURES

- Wide print head compatibility
- Superior colour gamut
- Excellent Reliability
- Fast Drying
- Excellent Outdoor Durability
- Superior Image Quality

OVERVIEW

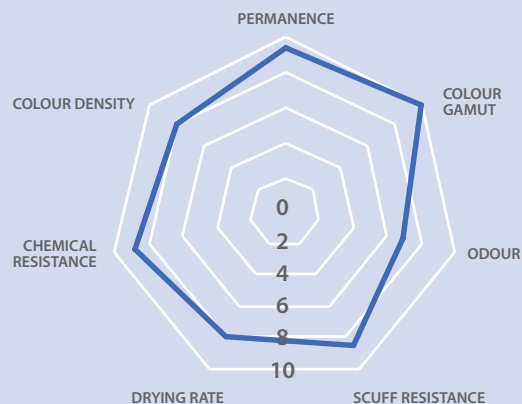

The Sapphire S20 is a premium print, mild solvent ink, available in one litre bottles for optimum use in Konica 14pl print heads. This ink offers very high levels of press stability ensuring reliable printing with low maintenance and increased productivity.

The Sapphire S20 ink also offers excellent media compatibility across a broad range of self-adhesive and flexible substrates, due mainly to the ink chemistry which consistently controls the placement of the drop on the media, thereby giving repeatable images from one substrate to the next. The Sapphire S20 series ink is particularly suited to the highest image quality requirements.

Only the most robust pigment chemistries are used to formulate the Sapphire S20 series ink, which ensures the best possible outdoor durability together with an extended colour gamut.

SPECIFICATIONS

Permanence	9.5	Colour gamut	9
Odour	7	Scuff resistance	8.5
Drying rate	8	Chemical resistance	9
Colour Density	8		

■ S20

PRINT HEAD COMPATIBILITY Konica Minolta 14pl

PACKAGING CONFIGURATIONS 1L

SHELF LIFE 18 months

SHIPPING AND STORAGE INFORMATION Storage & transit temperatures: +5°C to +35°C
Store in a cool, dry area, not directly on the floor and away from direct sunlight

OPERATING SPECIFICATIONS Temperature: +19°C to +28°C
Relative Humidity: 30% to 80% Non-condensing
