

SIGNTRADE News 01-2017

Signtrade introduces new ink products

Signtrade offers several new products to the markets. Major developments took place for UV printers where new ink formulations without NVC are launched during 2017.

Together with the new inks also specific bulk system, called NUsolutions have been developed. There are special bulk systems for HP FB series printers, Oce Arizona and Fuji Acuity. The bulk systems are easy to install and easy to use. For above printers the new Amethyst A50-HYB inks offer best adhesion and flexibility.

For large format printers Signtrade offers the new Amethyst A50-RTR inks with highest scuff and chemical resistance. These inks are available in 5 litre bottles and in 8 colours.
